Title	SPL - Panther System - Spare Parts List			

Purpose

The purpose of this document is to provide a list of active spare parts for the Procleix Panther System (which may be used on both the Procleix Panther System or Procleix Panther System featuring ART) and active spare parts specific only to the Procleix Panther System featuring ART.

Intended Use

This document serves as a support guide only to be used by qualified personnel who service and repair the Procleix Panther System and Procleix Panther System featuring ART.

What is Affected

The Procleix Panther System Spare Parts List includes active parts available in the global Supply Chain SAP system, which is the official record for all Procleix Panther System and Procleix Panther System featuring ART parts. This list may not align with the list of active parts at the regional level (North America, APAC, EMEA, LATAM). Also, note that this document is updated periodically, hence it may not reflect the list of active parts in real time.

Table 1 below provides a list of active spare parts for the Procleix Panther System (Classic Panther or Panther ART) and Table 2 provides a list of active spare parts specific for the Procleix Panther System featuring ART only, with the highest SAP number at the top of each list.
